

# John Kanzius

- Accidentally invented a means to burn salt water as fuel, while trying to discover a cure for cancer

... Retired radio & TV engineer from

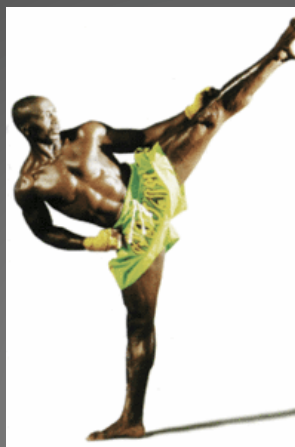

ERIE, PENNSYLVANIA

# Other Notable Erieites:

Mary Alessi

Billy Blanks

Anne B. Davis

Pat Monahan

Tom Ridge

# He Eventually Invented ...

The Kanzius RF Transmitter

# How Did He Do It?

... Pie pans

... and a hot dog

# The Result ... Revolutionary!

- For the first time ever, cancer cells can be targeted and destroyed without any medications, or damage to the healthy cells

# The Kanzius RF Transmitter

- [http://  
www.youtube.com/  
watch?v=6AOv-YL8\\_kE](http://www.youtube.com/watch?v=6AOv-YL8_kE)

- [http://  
www.youtube.com/  
watch?v=0RPoNJ51dYg](http://www.youtube.com/watch?v=0RPoNJ51dYg)

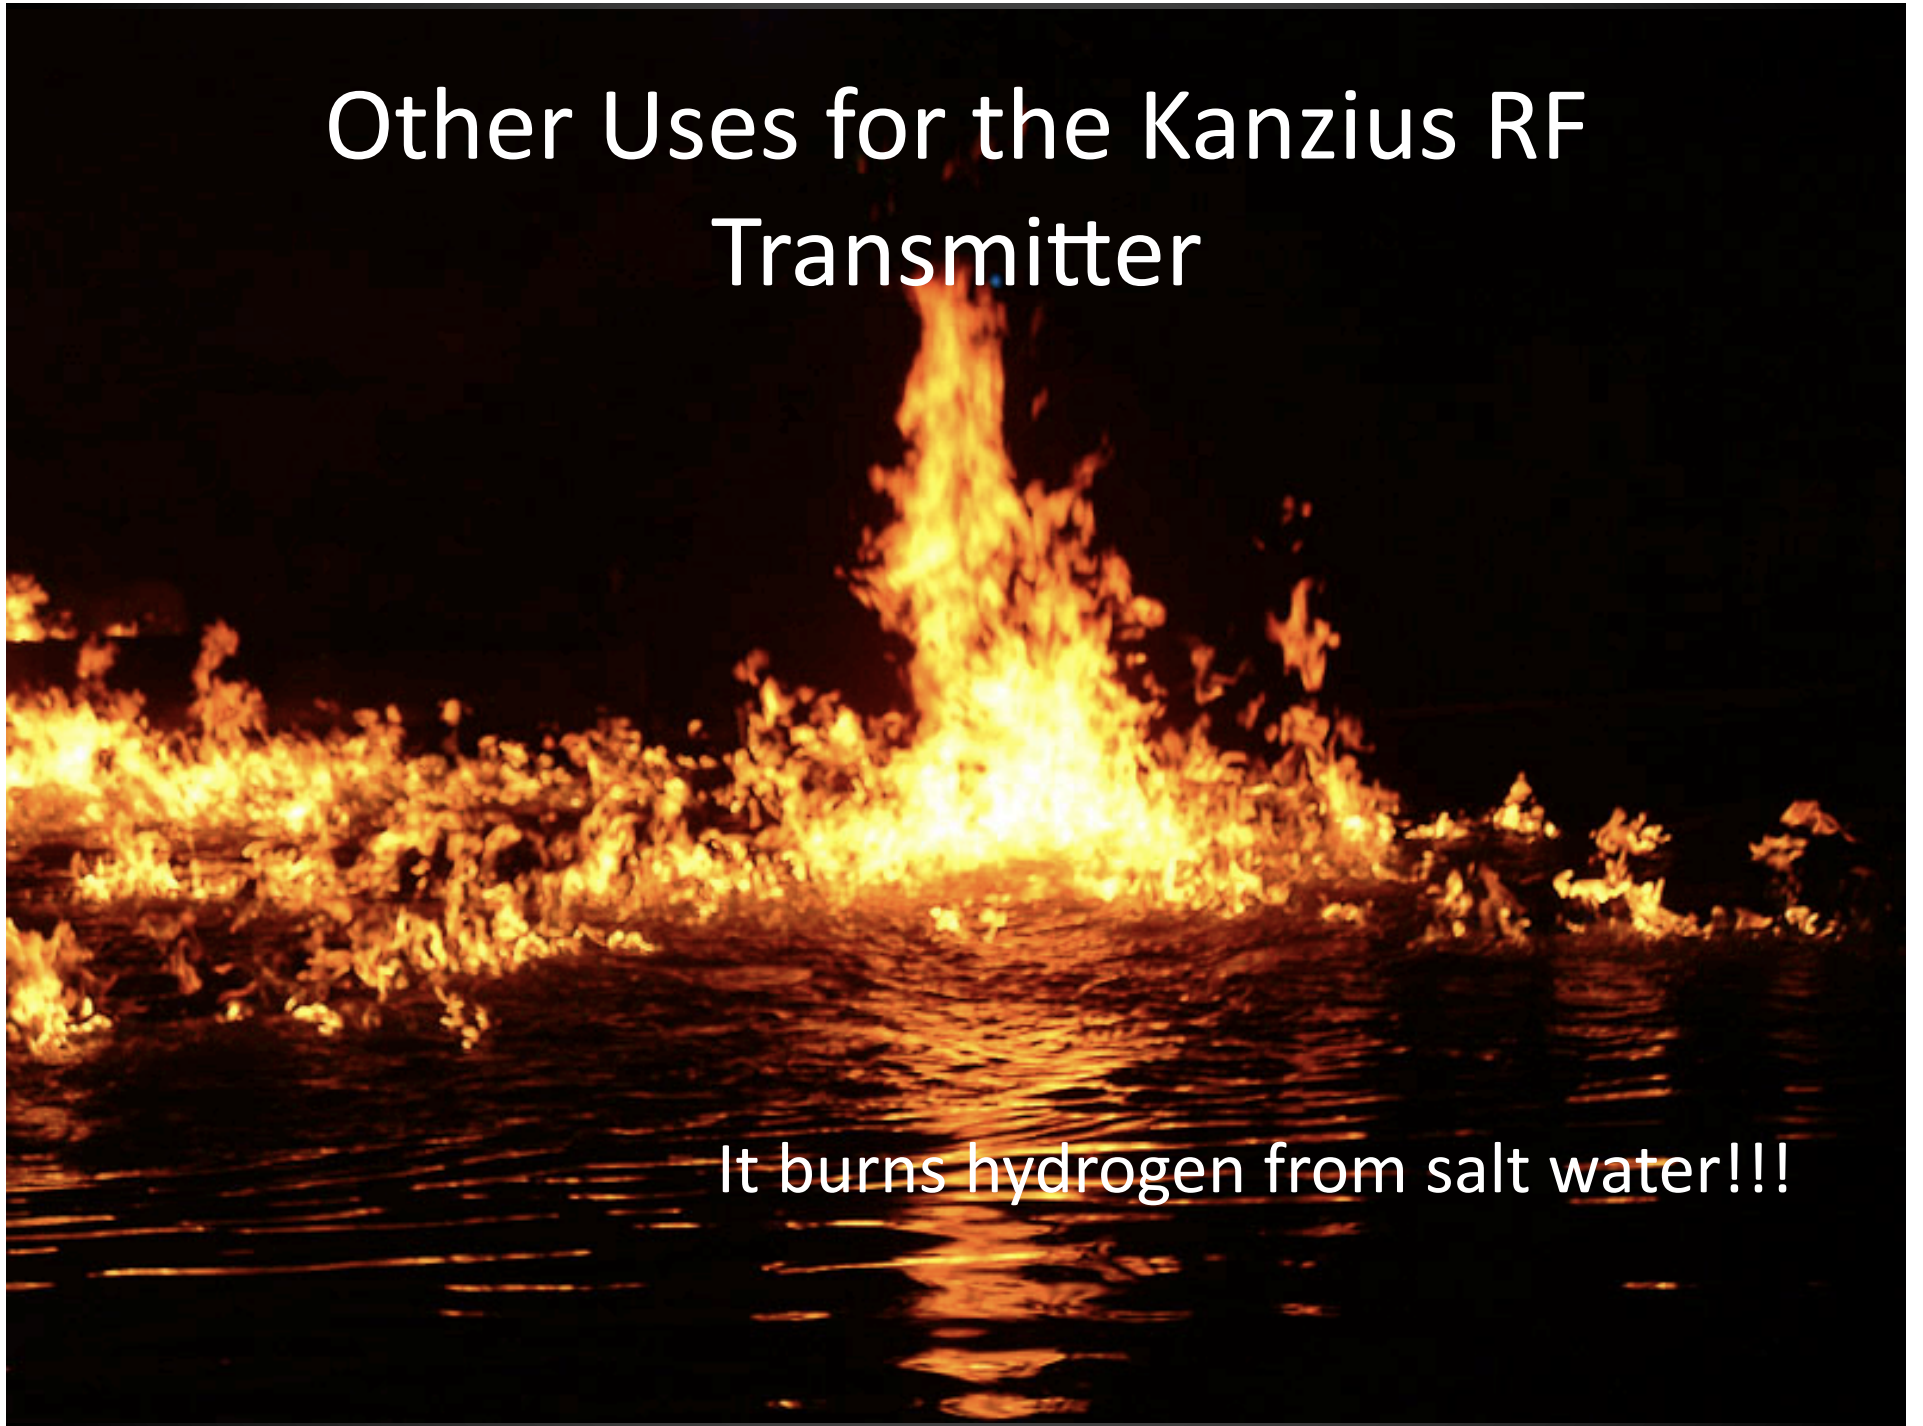

Tests so far... 100% Successful!

# Other Uses for the Kanzius RF Transmitter

It burns hydrogen from salt water!!!

# The Radio Waves

... repeatedly break  
up the bonds  
and reunite them

so that energy is created,  
and eventually released

<http://www.youtube.com/watch?v=4Okllm5a1Lc&feature=related>

# Rustum Roy

- “Once ignited, the hydrogen will burn as long as it is exposed to the frequencies. The temperature and flame color varies with water solutions and concentrations.”

# Other Fuel Alternatives

- Hydrogen vehicles convert the chemical energy of hydrogen into mechanical energy
- They run on fuel cells
- These cars are quiet, efficient, and produce no pollution
- Only bi-product is H<sub>2</sub>O

# Other Fuel Alternatives

- Electric cars use electric motors with rechargeable batteries instead of internal combustion engines
- However, they don't run as fast, and batteries need to be replaced every 5 years

# Other Fuel Alternatives

# Algae Fuel

**Also called: algal fuel, oilgae, or  
algaeoleum**
